- ◆ **September 29th - Feast of the Archangels** - Angels are part of nearly every religion's belief system. Most of our understanding of the Angels comes to us as revealed by the Jewish religion. Gabriel is considered to be the number one followed by Michael and Raphael. The next level of Angels is the type known as the ministering Angels which we know as the cherubim and the seraphim and their function is to help God administer the universe. The seraphim have three sets of wings who guard God's throne. They are so called the word mean burning and their devotion to God is so great as it is a burning love. The cherubim are Angels with human or animal characteristics and their function is to guard sacred places and continually to praise God.
- ◆ **October 2nd Feast day of the Guardian Angels:** God has given us a special angel for our protection and assistance both in soul and body especially at the time of our death. 'O Angel of God my guardian dear. To whom God's love commits me here. Ever this Day be at my side, to light and guard, to rule and guide. **Amen'**
- ◆ **October 4th - St. Francis of Assisi 1118—1226** abandoned all things for the love of Christ. Founded the Friars Minor, and with St. Clare, the Poor Clares. For the last 2 years of his life he suffered the stigmata.
Patron Saint of ecologists.
